

OUR ARBITRATION FINANCING PRODUCTS

1

Advisor Fee Financing

- We finance the fees of service providers of the arbitration market (lawyers, experts, etc.) in order to accelerate their payments.
- We monetize any type of fees (fixed, variables and success fees) before, during or after the arbitration procedure, in order to provide immediate liquidity to advisors.

2

Distressed Claim Financing

- We finance arbitration procedures where one of the parties is subject to restructuring, insolvency or bankruptcy.
- We offer financial resources in order to monetize potential or suspended arbitration procedures.

3

Working Capital Financing

- We provide working capital for clients involved in arbitrations through equity, debt or a combination of both.
- This type of financing allows clients to cover operating costs in order to maintain or improve its financial situation.

4

Multiparty Arbitration Financing

- We finance arbitration procedures with more than two parties or related to more than one contract.
- Multiparty arbitrations are complex and expensive, we provide funding to cover any expenses required either by claimants or defendants.

5

Settlement Arbitration Financing

- We provide financing to clients which already have a settlement agreement with their counterparty but they have not yet received full or partial payment.
- We monetize single or portfolio settlements.
